

FOR RECUPERATING TURF FROM STRESS

AFFECTED AREAS

Every summer, perfectly healthy lawns turn brown for a variety of reasons.

LIGHTLY RAKE

Lightly rake the areas and remove as much of the affected grass as possible.

APPLY WHOLE SHEBANG

Then simply apply Clarus® PRO Whole Shebang at the recommended rates.

LIGHTLY WATER

Water fertilizer in after application to see the best response for accelerated recovery.

RECOVERED AREAS

Whole Shebang can rejuvenate the most susceptible plants that died back to the crown.
